

Concepts And Methods In Evolutionary Biology

Pierre Pontarotti *Editor*

Evolutionary Biology

Convergent Evolution, Evolution of Complex Traits, Concepts and Methods

This book presents selected contributions to the 19th Evolutionary Biology Meeting, which took place in September 2015 in Marseille. It consists of 22 chapters, which are grouped in four sections:

- Convergent Evolution
- Evolution of Complex Traits
- Concepts
- Methods

The annual Evolutionary Biology Meetings in Marseille serve to gather leading evolutionary biologists and other scientists using evolutionary biology concepts, e.g. for medical research, to promote the exchange of ideas and to encourage interdisciplinary collaborations.

Offering an up-to-date overview of recent findings in the field of evolutionary biology, this book is an invaluable source of information for scientists, teachers and advanced students.
