

# Village: A Story About Caring

## *Cecilia "Cece's" Story*

Cece was diagnosed with Pneumonia this winter. She came to Falls Village to regain her strength and independence.

During Cece's stay with us she participated in daily physical therapy with our experienced physical therapists. Her favorite part of her therapy was riding the exercise bike since she had never ridden a bike before. She enjoyed the challenge and the workout riding the bike gave her.

An individualized care plan developed by our dedicated nursing and therapy team allowed Cece to make a full recovery and return home.

The one thing Cece is most looking forward to when she returns home is shopping, particularly grocery shopping! She is grateful to be able to return to the activities she loves doing on her own.

The staff at Falls Village are "a great bunch of people!" - Cece
